### The New Eggshell Shades!

But the proper shades for one's Spring gloves, according to Paris, are the eggshell colors.

One observes these soft beige-tan shades particularly in the new elbow length gloves, to be worn with new frocks.

### The Interesting Thing

The most interesting thing about this purse is not that it is of black striped moire; nor that it has a rhinestone ornament and is therefore the season's smartest bag; nor that it is silk moire lined and equipped with large mirror, vanity case and purse. The most interesting fact is that it is all of these for \$2.95

## A Spring Showing of Original Paris Hats

VERY large hats or very small for Spring, says Paris. And so, large drooping hats or smart little toques in many varieties are featured in the Spring Exhibition of Paris Hats which the Millinery Department announces for tomorrow.

These newly arrived French Hats have been carefully selected by our own representative. They are altogether French as to line and color. They are also hats carefully adapted to the need of the American woman. They show the fastidious, not the fantastic, of French taste.

Bois, the new wood shade, lace straw, ingenious French flowers, feathers and bows play stellar roles in the various models. The brilliant new shade of ruby faces the large black straw hat pictured above. And a draped black taffeta forms the crown. The trimming at the side combines black and ruby stems. \$35.00

Other original French hats, \$25 to \$45.
